3. The highlight feature of the meeting followed next, a video tape presentation of the [] espionage case. The tape was made available for Forum viewing with certain caveats. Besides the requirement for TS/SI, members were asked to withhold revelations of the content for what might be obvious reasons, but including the anticipated additional litigation that could follow in this case. The moderator wishes to extend to [] the gratitude of CCISCMS and all the Forum members for the opportunity to view the fine tape. It was certainly instructive and informative, and carried a strong impact relevant to all of us. Hopefully, one day a wider audience in the Community will be able to view and learn from this product or modified version thereof. []

Due to time constraints following the last meeting, it is suggested that remarks be offered concerning the cited video tape. Any members with items for presentation are asked to call the executive secretary with such information. If substantive agenda items develop, members will be advised telephonically for preparation purposes. []
